

The ART of Infographics for ELT

Yuliana Lavrysh
Iryna Simkova

Poll

Why do we use visuals in the classroom?

- Visuals encourage independence and autonomy
- Attract attention and help to remember
- Develop creativity
- Contribute to the development of reporting and summarizing skills
- Allow organizing the content
- Engage emotional stimulators

An infographic is a collection of imagery, data visualizations like pie charts and bar graphs, and minimal text that gives an easy-to-understand overview of a topic.

Match an infographic with its type)

Instructions

process infographic

Matching Pairs

Advantages

- high order skills development;
- better perception and memorization of educational material;
- media literacy enhancement;
- summarizing and reporting skills development;
- engaging in arguments from evidence;
- shift from a passive learner to an active content creator

Recommendations

1. Outline your goals for creating your infographic;
2. Collect data for your infographic;
3. Make data visualizations for your infographic;
4. Create your layout using an infographic template;
5. Add style to your infographic design to make it stand out.

Technology

from a large collection of templates or start from scratch.

Mobile recruitment is here to stay

graphics. Has a free and subscription versions; but free version is still powerful.

How to Find A Book

- Venngage

Another free infographic maker. Includes maps, charts, icons, and templates. You can even

options, but free version should work for most applications (free version contains more than 30 chart types).

Ideas

- Find 5-10 new interesting facts in the infographic.
- Check some of them for truth (find confirmation of them in other sources).
- Make a short oral report using infographics.
 - Answer the question: “What exactly surprised you most in this infographic?”
- Creation of infographics based on text which students have just read;
 - Translation of statistical data from any text into infographic format:

- Use infographics as a visual support for understanding the content of the text for reading or listening;
- Create an infographic based on the text they just read.
- Supplement one or another type of infographic, applying previous knowledge or additional information from the text for reading or listening;
- Read the information presented in infographics and correlate it with photographic images;
- Compare the information provided in the infographic with the answers to the same questions in the group;
- Create infographics with keywords on the topic.
- Make a link map of words on certain topics and add images to them
- Divide students into two groups, show comparison graphics and offer arguments to defend opposing points of view.
- Offer to write a visual summary or essay

Infographic interpretation

1. What ideas or information does an author present?
2. Identify the key ideas presented in the graphics
What story does it tell?
3. Identify the main conclusion told in the graphic
4. What is the source of information?
5. How does the author represent key message?
6. What questions do you have about the graphic?
7. What do you like/dislike about the graphics?
8. What questions do you have about the graphics?

Text into infographic

1. Read a text and identify key ideas
2. Summarize the main conclusions
3. What statistics or data is presented in the text?
4. Which of the way of graphing (by month, by day) would you like to use?
5. What information would you like to add?
6. What infographic type is better to use to represent the information?

A visual essay uses images along with words in order to:

Tell a personal story

Argue a claim

Explain a literary text

Illustrate a social problem

Please, share with us a visual essay about yourself)
